

Reflection and Action: Challenge

Directions: After reading chapter 9, we challenge you to create a lesson that uses the same co-teaching strategies that can work with preK and kindergarten students as well as older students (late elementary or secondary). Discuss two to three co-teaching strategies that would be in each lesson and how you would have implemented them differently. Last, challenge yourself to integrate the co-teaching strategies you discuss here in an upcoming lesson with your current students.

Challenge
