

Reflection and Action: Develop an Action Plan

Directions: After reading chapter 10, develop an action plan for how you can, in your position at your school, facilitate the development of its co-teaching culture. Whether co-teaching is widespread, just starting, or in the planning stages, think about how you can impact the co-teaching culture. You can use generative AI for your rough draft by prompting it to help you brainstorm an outline of an action plan based on your current position in a school, goals for co-teaching, data you are able to collect and evaluate, and systems you must be able to navigate to make progress.

Co-Teaching Action Plan

Overarching Goal:
